This product is not subject to hazard la	L Abeling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendm	lents and supplements.
2.3. Other hazards		
The substance does not have persiste	nce, bioaccumulation and toxicity (PBT) properties and is not very persistent a	and very bioaccumulative. (vPvB).
The substance does not have endocrir	ne disrupting properties.	
SECTION 3. Composition	n/information on ingredients	
3.1. Substances		
Contains:		
Identification	Conc. % Classification (EC) 1272/2008 (CLP)	
PEG 4000		
INDEX -	100	
EC 500-038-2		
CAS 25322-68-3		
The full wording of hazard (H) phrases		
SECTION 4. First aid mea	isures	
4.1. Description of first aid measure	S	
Not specifically necessary. Observanc	e of good industrial hygiene is recommended.	
4.2. Most important symptoms and o	effects, both acute and delayed	
No episodes of damage to health ascr	ibable to the product have been reported.	
4.3. Indication of any immediate me	dical attention and special treatment needed	
Information not available		
SECTION 5. Firefighting	measures	
5.1. Extinguishing media		
SUITABLE EXTINGUISHING EQUIPN The extinguishing equipment should b UNSUITABLE EXTINGUISHING EQU None in particular.	e of the conventional kind: carbon dioxide, foam, powder and water spray.	
2. Special hazards arising from the substance or mixture		

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

MİKRO TEKNİK Chemical solutions	Mikro Teknik Kimyevi Mad. Lab. Malz. ve Cih. San. Tic. Ltd. Şti.	Revision nr. 1
		Dated 12/12/2024
		First compilation
	MKR-0121 - PEG 4000	Printed on 12/12/2024
		Page n. 3/11
	•	

Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

MİKRO TEKNİK Chemical solutions.	Mikro Teknik Kimyevi Mad. Lab. Malz. ve Cih. San. Tic. Ltd. Şti.	Revision nr. 1

		Page n. 4/11

8.1. Control parameters

Information not available

8.2. Exposure controls

Comply with the safety measures usually applied when handling chemical substances.

HAND PROTECTION None required.

SKIN PROTECTION None required.

EYE PROTECTION None required.

RESPIRATORY PROTECTION None required, unless indicated otherwise in the chemical risk assessment.

ENVIRONMENTAL EXPOSURE CONTROLS The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

- 1			
	Properties Appearance	Value not available	Information
	Colour	not available

9.2. Other information		
9.2.1. Information with regard to physical sector of the s	sical hazard classes	
Information not available		
9.2.2. Other safety characteristics		
Information not available		
SECTION 10. Stability an	d reactivity	
10.1. Reactivity		
There are no particular risks of reactio	n with other substances in normal conditions of use.	
10.2. Chemical stability		
The product is stable in normal conditi	ons of use and storage.	
10.3. Possibility of hazardous reacti	ons	
No hazardous reactions are foreseeab	le in normal conditions of use and storage.	
10.4. Conditions to avoid		
None in particular. However the usual	precautions used for chemical products should be respected.	
10.5. Incompatible materials		
Information not available		
10.6. Hazardous decomposition pro	ducts	
Information not available		
SECTION 11. Toxicologic	al information

Based on the available data, the substance is not listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.		
12.7. Other adverse effects		
Information not available		
SECTION 13 Disposal co	onsiderations	

13.1. Waste treatment methods

Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number or ID number

not applicable
